

Brendon Stewart

Doctor of Physical Therapy Student at Rockhurst University

stewartbk@hawks.rockhurst.edu

Education

Rockhurst University

Doctor of Physical Therapy, Physical Therapy/Therapist, 2013 - 2016

University of Central Missouri

Exercise Science, 2006 - 2010

Summary

For my upcoming nine week clinical, I would like to be able to effectively: 1) Build a rapport with patients that promotes professionalism, respect, and compassion within nine weeks. 2) Effectively complete an examination and evaluation of patients with minimal input from my clinical instructor within nine weeks. 3) Document all aspects of physical therapy care including examination, evaluation, plan of care, treatment, response to treatment, discharge planning, communication with others involved in delivery of patient care independently within nine weeks.

Experience

Physical Therapy Technician at North Kansas City Hospital

November 2013 - Present (1 year 6 months)

Student Physical Therapist at Rockhurst University

June 2013 - Present (1 year 11 months)

Student Physical Therapist at Rebound Physical Therapy

December 2014 - December 2014 (1 month)

On this three week clinical, I was able to examine, evaluate, and treat patients coming into an outpatient setting along with support from my Clinical Instructor.

Lead Lifeguard at High Blue Fitness and Wellness Center

September 2011 - May 2013 (1 year 9 months)

Trained lifeguards, oversaw guards during shift, checked chemicals, and handled paperwork.

Lead Lifeguard at High Blue Fitness and Wellness Center

2011 - 2013 (2 years)

Skills & Expertise

Cpr Certified

Lifeguard Instructor

Exercise Physiology

Rehabilitation

Sports Medicine

Pediatrics

Physical Therapy

Injury Prevention

Manual Therapy

Sports Injuries

Exercise Prescription

Orthopedic

Athletic Training

Strength & Conditioning

Kinesiology

Lifeguarding

CPR Certified

Orthopedics

Volunteer Experience

Student Physical Therapist at Rockhurst University Pro Bono Clinic

August 2013 - Present (1 year 9 months)

Observed, evaluated, and treated lower income individuals in the surrounding Kansas City area. I was able to work with fellow Physical Therapy students, Occupational Therapy students, and PT and OT faculty illustrating a very cooperative approach to therapy. Along with my fellow students, we were able to interview, examine, perform an objective examination, evaluate, treat, and document with helpful input from both PT and OT faculty.
